This tract offers almost 5 acres of nicely rolling hills with several easy build sites surrounded by mature woods. Private and secluded, this is a great tract to build on and be in a protected development, but still feel like you are deep in the woods. Just a stones throw from the Victoria Valley Vineyards. River Bluff is a great mountain development where all of the lots are large and have multiple acres. So it will never be crowded. This lot also has frontage on S. Saluda Road. River Bluff has their own water system, although you will need to install a septic system. Easement access to this property from Raven Court.
